OBJECTIVE I: The BSA measures its success by the increase in the positive, difference-making impact it has in the lives of youth.	Green	Blue	COMPLETE	1) We have developed a new definition of success, including a set of clear, measurable outcomes for the Scouting program, and have implemented new metrics for assessing the performance of BSA employees and volunteers. [May 2012]	<b>Action Taken:</b> This goal has been completed with the successful launch of Journey to Excellence and its integration into local council operations. <b>Action Upcoming:</b> Continued review of Journey to Excellence metrics (there will be meetings with volunteers and staff in June & July) to begin finalize criteria for 2013.
		Green	76 - 99%	<b>GOAL 112)</b> In coordination with our councils, we have newly defined success for units, districts, and councils using a balanced scorecard approach that measures mission impact, customer satisfaction, and financial sustainability. [December 2013] <b>GOAL 152)</b> We have developed and introduced a new recognition system for measuring effective and excellent performance at the unit, district, council, and national levels that ties councils and council leadership performance directly to the key performance indicators of the Council Strategic Management Program. [May 2012]	<b>Action Taken:</b> The Journey to Excellence criteria and Council Dashboard have been completed. Also, Voice of the Scout (focused on customer satisfaction) was launched in the Spring with more than 80% of councils opting into this JTE criteria. Voice of the Scout continues this fall with a new group of councils joining the spring participants. The goal is to reach a new level of customer satisfaction evaluation and grow the number of Scouting participants that would recommend our program to friends and families. <b>Action Upcoming:</b> The Journey to Excellence District Dashboard is targeted to launch in the first quarter of 2013. Voice of the Scout evaluations of surveys (to determine our percentages of Promoters, Detractors, and fence-sitters) will continue. Councils will have the opportunity to address challenges head-on and continue to grow the elements of the Scouting program that are doing well.
		Blue	COMPLETE	3) We have developed and introduced a communication structure for both gathering and disseminating to our membership insightful and useful feedback and information from our chartered organizations and key community institutions (e.g., schools and churches) about how and where Scouting can best support the needs of the youth and communities it serves. [December 2012]	<b>Action Taken:</b> Developed Memorandum of Understanding with all chartered organizations. Each organization has a link to a fact sheet and to the national organization on Souting.org/ membership. We also collaborated with the Outdoor Program group and Program Impact to gather all Memorandums of Understanding throughout the National Council. I believe that we have the best one stop shopping experience as it relates to providing customer service. Our challenge is communicating to the field the resources they have available to support membership recruiting and new unit development. <b>Upcoming Action:</b> As chartered organizations are added, they are added to the website. In the area of on-going maintenance, in collaboration with the New Unit, Education, Community, and Religious task forces, we are able to update brochures to specifically target specific groups.

<p><b>OBJECTIVE II:</b> The BSA has increased its market share at all levels (unit, district, council, and national) through a robust and comprehensive approach to diversity and inclusion of minorities, women, and other underserved groups.</p>			26-50%	<p>2) We have recruited ethnically diverse, qualified, and committed individuals in proportion to our demographics onto the National Executive Board and regional boards, thereby providing a model for local councils. This effort provides better representation of our intended BSA membership. [May 2012]</p>	<p><b>Action Taken:</b> This goal has been discussed with the National Nominating Committee by the Chief Scout Executive as an important factor for board member recruitment. In addition, an Ethnic Diversity Scorecard to assess diversity of our national board in relation to national demographics has been developed and is being used by the nominating committee.</p> <p><b>Action Upcoming:</b> Development of specific action steps at national and regional levels to address greater diversity within the national or regional boards.</p>
			76 - 99%	<p>4) We have altered BSA professional employee personnel evaluations, development, and recognitions to include ethnic membership diversification as a key metric for each council. [December 2012]</p>	<p><b>Action Taken:</b> Identified cultural competence hiring evaluation to include: working effectively with individuals of diverse cultures, interpersonal styles, abilities, motivations, or backgrounds; making the most effective use of the capabilities, insights, and ideas of all individuals. Developed AMS HR Recruiting, Retention Plan &amp; On Boarding; piloting mentoring; Developed and we are trying to upload Diversity Dashboard to support JTS. Diversity Dashboard was developed in SharePoint and we do not have the right platform to upload current version. Developed proposal to purchase electronic language learning site for all employees (i.e. Rosetta Stone - Spanish, etc.) Developed BSA Standards for Employee Forums to support overall strategic goals of BSA. And, our challenge is that we do not have any involvement in HR Inventory nor succession planning.</p> <p><b>Action Upcoming:</b> We need to upload the Diversity Dashboard. Implement formal Employee Resource Groups to help BSA evaluate and achieve diversity and inclusion all strategies. We need to find funding for Cultural Competence Training. Development of an employment site on my BSA that focuses on the achievements of all employees.</p>

OBJECTIVE III: The BSA has increased its net membership by retaining youth in the Scouting program longer.			COMPLETE	1) We have provided volunteers and youth-serving executives with new, innovative, and reliable measurement tools, strategies, reward systems, and resources to support individual units in increasing member retention from year to year. [December 2011]	<b>Action Taken:</b> Retention Tool Box completed and ready to share with councils. <b>Action Upcoming:</b> BSA staff working on new Retention tracking, and the new mid-year recognition award in place to drive market share. In addition, we are developing brief presentations to be used at Cub Scout Roundtables.
			26 - 50%	2) The retention rate of BSA youth membership has increased to 75 percent from 69.5 percent in 2008. [December 2015]	<b>Action Taken:</b> 2011 National retention 70.6% <b>Action Upcoming:</b> Continue to work with individual councils to increase their retention rates. 46% of councils experienced increased retention through the third quarter of 2011. Our goal moving forward is for 80% of councils to have an increase in retention annually.
			51 - 75%	3) We have reviewed the leader selection process and delivered to local councils a plan that supports full implementation of this process by units and charter organizations, including an emphasis on creating positive experiences for first-year volunteers. [June 2012]	<b>Action Taken:</b> Committee has been meeting. A strategic plan goal was rewritten based on committee request. Rewritten goal was accepted at February Executive Board meetings. Committee completed a conference call on March 14.
			26-50%	4) We have transformed the membership registration and transition process so that individuals within the same council may move seamlessly between Cub Scouts, Boy Scouts, and/or Venturing without having to reregister when they change programs. [December 2013]	<b>Action Taken:</b> Akela, the new Membership system data model hinges on the concept of one member record for life. As such, members will be able to move seamlessly from programs, councils, etc. as this will be a "relationship" they have with Scouting. Current development is on an automated synching process which will allow a managed transition from the current Membership system to Akela. <b>Action Upcoming:</b> The automated synching process is currently behind schedule, and additional resources and vendor engagement have been added to get back on schedule. Overall, the completion date of December 2013 is not in jeopardy at this time.

Project titled Columbus Project is being led by Scott Beckett fall 2012.
			76 - 99%	2) We have designed and implemented across the organization a new, volunteer-led youth recruitment and recognition strategy for Cub Scout-age youth, focusing particular attention on providing strong program support during the first year of membership. [December 2015]	<b>Measure:</b> Our goal is to improve the diversity in youth served within 80% of councils. <b>Action Taken:</b> Presented 1 of 8 "Marketing Scouting to Ethnic Population" workshops. 5 out of 15 strategies of market share segmentation are in progress. <b>Action Upcoming:</b> To complete this goal, we still need to determine a way to capture the total available youth by demographic market.
			76 - 99%	4) We have enabled and simplified youth and volunteer recruiting at all levels using the Internet and other advanced technological methods and tools. [May 2011]	<b>Action Taken:</b> Enhancements for BeAScout operating system have been implemented to support lead follow up. <b>Action Upcoming:</b> The beginning of the registration process online, up to the point of payment, to be piloted fall 2012.
